

VISTA Service Objective Worksheet

This worksheet is to help you organize your VISTA service objectives. Each VISTA member is responsible for creating or revamping seven new programs or activities at the site over the course of the year. Each of these counts as a VISTA service objective.

The criteria for what can count for a VISTA service objective are:

1. The objective builds the capacity of the site (not direct service).
2. The objective is site-specific (it should primarily benefit the VISTA member's site).
3. The VISTA should play a primary role in producing the objective's outcome (the objective's outcome wouldn't have happened without the VISTA member's leadership).
4. The objective has a specific and measurable outcome.

Three of the objectives should have a specific focus. VISTA members should base the other objectives on the needs assessment with guidance from the site supervisor. Plan on submitting evidence, or physical proof, of each objective. Evidences will be added to each VISTA member's service portfolio.

Objectives	Completion Date	Outcome (what will you hand us as proof?)
#1 (writing):		
#2 (resource generation):		
#3 (volunteers):		
#4:
